

Sicco Bus

Professor of Clinical Biomechanics

Sicco Bus is a human movement scientist and works as a professor of clinical biomechanics at the Amsterdam University Medical Center in the Netherlands. Sicco completed his doctoral dissertation on the structural and functional aspects of the neuropathic foot in diabetes. In his work at the department of Rehabilitation Medicine, Sicco leads and supervises research on lower-extremity biomechanics and injury prevention in diabetes and sports. Sicco is member of the editorial board and of the ulcer prevention and offloading guideline panels of the International Working Group on the Diabetic Foot (IWGDF). Sicco is member of the organizing committee of the International Symposium on the Diabetic Foot (ISDF) since 2015 and the current chair of ISDF.
